Project 2: Evaluating the Strength and Characteristics of a Geo Textile Reinforced Soil.

In this study the performance of geo textile membranes and geo bags, interfaced between soft clayey soil and Non-plastic soil in paved and unpaved system, is carried out experimentally, utilizing the California Bearing Ratio (CBR) testing arrangements. In order to evaluate the performance, the reinforcement ratio is obtained based on the CBR load.

❖ Outcomes:

- By proving Geo-textile and Geo bag as reinforcement in top 1/5th layer Increasing CBR Value for both Clay Soil and Non-Plastic Soil.
- Cost Reduction , Durability, Time Reduction.

Strengths:

- Smart Working Nature
- Good Planning and Ability Skills
